Opening Summer 2024

"If it takes a village to raise a child, it takes a village to support that child's parent." - Ann Douglas

We all know that it takes a village to raise our children, but what happens when you have never had a village you can rely on? And what happens when you need a village that gives you a hand up, and not just a hand out? Supporting young women in The Langdyn House means we find the tools in our community and work together to empower them to be all God intended for them and their child to be! From friendship to being a mentor; providing childcare to providing financial support, we all have the ability and the call to help those in need in one way or another. The Langdyn House is a short-term solution to a long-term problem for many young women. TOGETHER, transformation can and will happen!

If you have a skill or know of a resource that can help us minister to the needs of young mothers, please email me at stephanie@plchealthclinic.org.

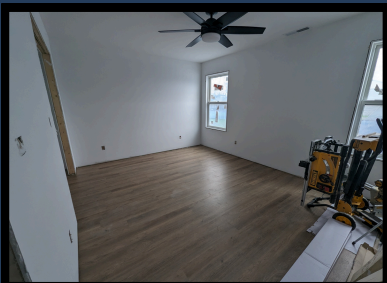

Let's come together and build our community!
